

THE SECRET CHEST

and the Golden Keys

What's in the Trunk??

How the Game Works

- Players earn points on their Player's Club card
- Players reach point total and select a Key and try the Trunk Lock
- Prizes and point levels are determined by the Casino. Use your excess prizes and gifts, prize tickets, VIP gifts OR we can provide the gifts!

- We will provide you with the lock and keys and the trunk.
- You decide how many keys can open the lock.
- We will also provide a number of keys that will NOT open the lock.
- For example, 500 keys in total - 100 open and 400 will not open.
